

Dear Gentlemen,

As you are all well aware, the Ice Vault Arena has opened up the In The Crease Sports Pub on the mezzanine level over the lobby. A result of this, our and your need to comply with all of the New Jersey State liquor laws to insure ourselves against any situations of liability as well as fines or loss of license. To that end I want to be crystal clear that the entire Senior Management and all of the staff of the Ice Vault and the In The Crease Sports Pub will follow all of the laws put in place by the State and the Ice Vault. First and foremost: We will no further be able to allow ANY alcoholic beverages of ANY kind being brought into our building, locker room or outside in the parking lot for the purpose of consumption.

With the responsibility of having a liquor license and a Pub on the premises we cannot afford to have any team or member of a team to continue to bring any alcoholic beverage in our building. If you cannot comply with this rule then it is really very simple. We will have to part ways with each other, as much as we would hate for that to happen. This rule is 100% percent rigid and unbreakable. Any lack of compliance will be dealt with in the appropriate manner for us to comply with all the laws.

Several other rules of the In The Crease Pub have also been put into effect as well for our general attending guests.

1. The drinking age in the Pub is 23, for a number of reasons that our necessary for our facility.
2. No children are allowed in the Pub whether accompanied by an adult or not. We want the Pub to be an adult haven in the midst of our facility.

Please help us make this a Pub that we can all be proud of. The management and staff of the Ice Vault have gone and will continue to go to great lengths in making our facility the very best in the country. A place that not only we are proud of, but that our guest and members are also proud of being a part of.

Thank you,

Bobby Reiss
